Stainless Steel Ball Valve DN50

BV316-050

About this product

Two-piece flanged ball valve for water, steam condensate and light chemical service. The full-bore ball keeps pressure drop low, and the live-loaded stem seal holds tight through repeated temperature cycles.

Key features

- Full-bore ball for low pressure drop
- Live-loaded graphite stem seal
- Lockable lever handle
- ISO 5211 mounting pad for actuators

Applications

Isolation of water, condensate, air and mildly corrosive liquids in process and utility lines.
